Notes on HARBISON Revolutionary War Pensioners

HARBISON

Pension application #

George Harbison, S. C.

R. 4586

1756

George Harbison application - In Revolutionary War and Indian Wars. Lived in Florida & Georgia. Born in N. C. Very interesting account of his service. His father's house was burned by Cornwallis. His nephew, Isaac Harbison with whom he lived, also made a deposition. Served in the Florida Expedition, Four Holes and at Compens.

The following notes taken Saturday. Will get his deposition later on xerox.:

He applied for application on Apr. 19, 1843 - George Harbinson resident of Perry Co., Miss. applied for a pension at age 85 years. Intered under Capt. Wm. Long, Lt. Thomas Muse? of the S.C. Militia then Crain Co. Dist. now Kershaw District. Andrew Williamson was the General and Goodin (Robert I believe) was the Colonel. The tour he thinks was a month or six weeks. He was at the time at his father's place. This was called the Florida expedition.

1843
85
1758

Fifty pounds was offered for him dead or alive by the British. Tucker was captured and hung. He was born in N. C. upon How? River on the 10th day of May 1756. (Probably at Camden but not clear). He states his father's home was burned while Cornwallis was in Camden. He married in Kirshaw after War - had ten children then moved to Houston County, Georgia, from there to Florida and from there to this county (Perry Co., Miss.).

Very interesting account of service. He participated in the Siege of Savannah, Battle of Compens and severely wounded. Lived with nephew.

Isaac Harvison

Sarah Harbison - W7706

Wife of William Harbinson of Guilford County, N.C. residing in Elbert Co., Georgia. He died Feb. 14, 1820. She applied Feb. 13, 1846. Nancy Bryan attested to marriage. (The Bryan family married into the Boone family. Both families lived in N.C.)

William Harbison served as a Light horse. "In relation to the statement I made, when I first presented this claim as to the marriage in which the rite of marriage was performed in N. C., I will just say that I received my information from citizens of that State who informed me that a publication of marriage three times previous to its taking place dispensed with the necessity of a marriage bond and a county Record whether performed by a Clergyman or magistrate. And so it is in this State." The above statement was made by the pensioner officer, Thomas I. Hughes, of the State of Georgia in a letter to the Commissioner of Pensions in Washington, D.C.

I will get copies of this deposition at another date. It is very lengthy but interesting.

M. Essary Mar. 8, 1983.

about 1844 in Burke Co. to Martha ("Patsy") Throckmorton who was born 1818/9 in NC by census records, in England according to Mrs. Stewart. Mrs. Stewart's records credit Alexander and Patsy with 6 children but name only 4. Two others (Sarah and Mary) are named in census records.

- a. Sarah b. 1845/6, Burke Co., NC
- (30) b. John W., b. 2 Apr 1847 or 1848, Burke Co., NC, d. 23 Mar 1922; m. 2 Apr 1874, Rebecca Williams
- c. Mary, b. 1848/9, Burke Co., NC
- d. Lee ---m. Mollie -----; had daughters Agnes and Mary Lee.
- e. Emma
- f. Allen

It should be noted that the compiler once thought that Alexander (#20) might be identical with Alexander of Williamson Co. (#25 A.) but as of early 1983, # 25A had not been satisfactorily placed. The statement that Mrs. Stewart's ancestor "Eli" (that is, Alexander # 20) was brother of Matthew's father (that is, William # 25) is of course, close but not exact --- they were first cousins.

21. James Matthew Harbison, son of John Harbison and Lydia Smith (or Mary), was born 28 Aug 1825, almost certainly Burke Co., NC. He is said to have been postmaster at Morgantown in Burke Co. before coming to Turkey Creek in Maury Co., Tn. Although some accounts state that he came to Maury Co in Dec 1849, he does not appear in the 1850 census there and he does appear in the 1850 census of Burke Co., NC --- in the household of Lydia Harbison. He died 15 Mar 1898 and is buried in the Harbison Cemetery on Willis Woody's farm. He married 1 Nov. 1866 to Margaret E. Dodson. She was born 12 Jan. 1842 in Maury Co., daughter of James Ellis Dodson and Rebecca A. --- (Hope?). She died 28 July 1913. 2 children.

- a. Mary Elizabeth, b. 25 Oct 1867, d. 1943, m. Sam Willis Woody, son of John W. Woody. They had 6 children: S. E., John N., Maggie Eunice, Willis W., James Clarence, and J. E.
- b. John Ellis, b. 23 Oct 1869, d. 31 May 1891.

22. ISAAC HARVISON must have been b. close to 1800 (b. 1790-1800 by the 1830 census; 1800-10 by the 1840 census.) Almost certainly he was b. in SC. The pension records of George Harvison (in Kershaw Co., SC 1800/10/20) identify Isaac Harvison of Perry Co., MS as a nephew with whom George went to live. Information presented under considerations 3 and 4 below also supports the SC birthplace and the compiler's hypothesis that Isaac was s. of Alexander Harvison/Harbison ii. This Alexander moved numerous times - one census shows his son John b. early 1800s in SC, another shows this son b. in GA.

Since Isaac appears in an 1822 Perry Co. tax list, he was in MS by then. He appears in both the state (20100-20110) and federal (200001-11001001) census of Perry Co. for 1830 and was also there in 1840 (201001-32101). Isaac himself was on the 1841 and 1842 Perry Co. tax lists, but since the 1844 list shows his estate, he must have d. ab. 1843. The Perry Co. lists show no land for him, but the 1846 lists of Greene Co. identifies land belonging to Isaac in the southern part of that co., now part of George Co. Thus presumably Isaac lived in Perry Co. and had land in Greene Co. at the time he died. From the 1830 and 1840 census, Isaac must have m. ab. 1823, prob. in Perry Co., and had at least 11 children, probably by at least two wives.

Harvison Family

The following considerations are relevant to identifying Isaac's children:

1. Isaac is the only early generation Harvison found in the area and descendants of William Harvison (#34) have placed him as son of Isaac and this placement must be seriously considered although it has some problems. The compiler concluded that William was probably not Isaac's son because William was b. and 1819/20 by the 1850 census (1822/3 by the 1860 census; so certainly in the very early 1820s.) One interpretation of the sequence of entries just before and including William's 1850 census entry would be that he is shown as born in TN, but most likely this was not meant by the enumerator. More important, both the 1830 and 1840 censuses show no sons for Isaac born before 1825. William was almost certainly in DeKalb Co., MS in 1850, but in Greene Co. by the time of the 1853 state census. He must have been closely related to Isaac if not his son and his wife Matilda Breland is placed as dau. of Absalom Breland who lived in Greene Co. and whose son Asa m. Ann Harvison, dau. of Isaac. He could have come to the Greene/Perry area because of Matilda's parents living there. His being Isaac's son or other relative could also have been a factor in his moving or returning to Greene Co.

2. From their proximity in the 1860 census, William Harvison (#34; b. 1819-23) and David Harvison (#35; b. 1826, MS) were probably brothers. Although there is a slot in Isaac's hh that could be David, there is, of course, none for William. The compiler's best hypothesis is that William and David were sons of John with John being brother of Isaac. An alternate hypothesis is that William and David were first cousins - William being son of John and David of Isaac.

3. Although there are significant conflicts in different census reports as to the ages of Isaac A. Harvison (#31) and George Harvison (#32) of Washington Co., AL, Isaac's 1830 and 1840 census reports probably have slots compatible with their ages. These first names occurred earlier in Isaac's family and it is believed that both were his sons. Other interesting facts are that (a) both Isaac A. and George had sons named Alexander (supporting the hypothesis that Isaac was oldest son of Alexander ii of Burke Co., NC, SC, GA, and the three TN cos. of Maury, Lincoln, and Obion; actually Isaac's full name may have been Isaac Alexander, (b) Isaac A.'s 1880 census shows him b. in TN, and (c) George's 1900 census shows his f. b. in SC and m. in MS. As an alternative, Isaac A. and George could have been grandsons of George Harvison Sr.

4. Their closeness to Isaac's residence, the fact that they were women (and consequently less mobile), and the fact that there are slots in Isaac's hh for them make a strong case for placing any or all of the following as daus. of Isaac: Rachel Jane (1824/5 or 1830/1), Ann (1824-8), Eliza (1831/2; living with Anna in 1850 and 1860), Eran (1837), and Elizabeth (22 Jan 1840.) Of significance also is the fact that Anna had son Alexander Breland (see point 3.) and that her father was b. in SC!

Harvison Family

5. Although there is some reason for placing John C. Harvison (#32A) as a younger bro. of William and David, there is also a good case for placing him as s. of Isaac. Also, the "John H. Harvison" in George's 1860 Wash. Co. hh would appear to be John C., adding further support to John being Isaac's son. John's birthyear as given in the census records varies from 1835 in the 1910 census to Mar 1845 in the 1900 census; his gravestone shows he d. 20 Jul 1918 age 79, that is, b. 1838/9, which is what is shown in the 1860 census

6. It is highly improbable that William, David, George, Isaac A., Joe, and John C. are all sons of Isaac - the 3 census records in which Isaac appears support a maximum of 4 sons and probably only 3 who reached adulthood.

The following list summarizes what can be deduced about the identities of the 11 children:

- a. dau., b. 1820-25; maybe Rachel Jane Harvison, b. 1824/5 or 1830/1, who m. (1) T. Brian Breland; (2) John Brewer; (3) Charles Hillman; alternatively, Jane could be person e.
- b. dau., b. 1825-30; prob. Ann Harvison, b. 1824-28 (most likely 1827), m. ab. 1844, Asa Breland, s. of Absalom
- c. son, b. 1825-30
- (31) Most likely Isaac A. Harvison of Wash. Co., AL who was b. 1828/9 by the 1880 census
- (35) Could be David Harvison, b. ab. 1826;
- (34) Improbable but not impossible that William Harvison (b. 1819-23; m. Matilda Breland, dau. of Absalom) belongs in this slot, and that David or Isaac A. belongs in slot d.
- d. [son, b. 1825-30] - a 2d son in this age bracket is supported by the 1830 census but not the 1840 census; maybe the Joe Harvison men. in family tradition; maybe d. by 1840; alternatively, maybe David or Isaac A. or George belongs here.
- e. dau., b. 1830-35; could be (1) Rachel Jane - see person a. or (2) Eran - see person h.
- f. dau., b. 1830-35; probably Eliza Harvison, b. 1831/2; living in the hh of Asa and Anna (Harvison) Breland in 1850 and 1860; it should be noted that Eliza and Elizabeth (person k) cannot be the same person because of (1) the age difference and (2) the fact that Elizabeth was presumably married and a mother by 1860 whereas Eliza was still single.
- (32) g. son, b. 1835-40; most likely George Harvison of Wash. Co. whose birth is placed from 1829-1840 (1834/5 from 1860 census); alternatively, George could be person d.
- h. dau., b. 1835-40; probably Eran or Erian Harvison, b. 1837 by two censuses; 1832/3 by another census; apparently m. ab. 1859, Elias or Michael Miller, b. 1835; as an alternative, if Rachel Jane is really person a., then Eran could be person e.
- i. dau., b. 1835-40
- (32A) j. son, b. 1835-40; prob. John C. Harvison b. prob. 1839
- k. dau., b. 1835-40; could be Elizabeth Harvison b. 22 Jan 1840, d. 6 Sep 1876, m. 1855, Pinkney G. Hillman Sr. (14 Apr 1829 - 9 Apr 1916), both bur. Neeley Cem., Greene Co., MS.

As will be seen later, Matthew Harbison/Harvison of Mo., ancestor of the compiler's wife, born in Tenn. in 1821, has never been placed with 100% certainty. His date of birth and the fact that he was already in Mo. by 1840 prevents us from totally ruling out his being a son of this older Matthew of Maury Co. Two facts ~~anger~~ *argue* against Matthew of Mo. being son of the older Matthew of Maury Co. — (1) another Matthew (Matthew D., as above) is possible a son of the older Matthew — unlikely that he had two sons named Matthew and (2) the best evidence points toward Matthew of Mo. being son of John son of Alexander ii son of Alexander i.

(In the above and in what follows, a number in parenthesis to the extreme left of a child's entry indicates that the family group of this person is provided under that number in its proper sequence later in this account.)

FIRST GENERATION

2. Alexander Harbison i, born about 1735 |, probably in northern Ireland. This Alexander probably came first to Pennsylvania through the port of Philadelphia, and from there migrated to Burke Co., NC where he appears in land and other records from 1778 on. A Harbison man in Burke Co. related in 1952 to Mr. T. H. R. Neal that his ancestor, Alexander Harbison, came to Burke Co. from Pennsylvania. As already noted, the 1790 census indicated that Alexander Harbison had at least 5 sons and 2 daughters. Tentatively, 7 sons are shown below.

- (2A) a. George (?), b. 1756, NC
- (3) b. James, born 1760-70
- (4) c. Matthew, born 1771, NC, m. Sarah Dorcas Witherspoon
- (5) d. Samuel (?), born 1775/6, probably NC
- (6) e. William, born ab. 1777
- (7) f. John, born ab. 1778
- (8) g. Alexander ii, born 1779/80, NC.

* SECOND GENERATION

- 2A. George Harbison/Harvison, b. 10 May 1756, NC, placed as brother of Alexander ii on the basis of new information from his pension file (R4586, SC). He lived in Kershaw Co., SC (1800/10/20 censuses), Houston Co., Ga., Florida, and finally (by 1843) with his nephew, Isaac Harvison (# 22) in Perry Co., Miss. The NC/SC/Ga migration pattern plus our not finding a brother for George in Kershaw, SC lends some ~~some~~ support to Isaac being son of Alexander ii. From his pension file, George had 10 children, none known by name. From census records, he must have had 2 or 3 sons and 5 or 6 daughters with up to 3 children dying as infants. An alternate hypothesis for the placement of George and Isaac Harvison is from the Harvisons of Lincoln Co., NC.
3. James Harbison Sr. of Burke Co., NC and Maury Co., Tn., b. 1760-70 from the 1830 census. He is probably the James in the 1807/8 Williamson Co., Tn. tax record where he appears along with John and Alexander. He could be the second male adult in Matthew Harbison's 1820 Maury Co. household(540002-01210). He definitely appears in the 1830 Maury Co. census(001120001-00010001) and in several 1825-1834 Maury tax records. He had at least one dau. (b. 1810-5) and four sons(two b. 1800-10, one each b. 1810-5 and 1815-20). Only one of his sons have been identified; it would be most interesting to know who the other children were, but there are no clues.

- (9) a. James J. Harbison Jr. born 1808/9, Tn.

7. John Harbison, like his brother William, remained in Burke Co., NC. He was born between 1775-80, say about 1778. He must have m. ab. 1807. There was a John, James, and Alexander Harbison in the 1807/8 tax lists of Williamson Co., Tn. Perhaps John went to Williamson Co., Tn. with his two brothers but returned home to Burke Co. to marry and settle down there while his brothers remained in Tn. John is enumerated in the 1820/30/40 census of Burke Co. His wife is said to have been Lydia Smith, although some accounts place James Matthew's mother as Mary. John's children are said to be "cousins" of Matthew Harbison, the pioneer settler of Maury Co., Tn. It's more likely that they were Matthew's nephews, but cousins of Matthew's children. John presumably d. in Burke Co. between 1840 and 1850. His wife and several children then came to Maury Co., Tn. John had 7 children known by name and probably at least 3 others. The census and other Maury Co records give contradictory dates for his children's years of birth and the dates given below are the most probably dates. The 7 known children are.

- a. Thomas A., b. 1811/12
- b. Rachel A., b. ab. 1813.
- c. Mary, b. 1815/6
- d. Elizabeth A., b. ab. 1820. Never married.
- (20) e. Alexander
- (21) f. James Matthew, b. 28 Aug. 1825
- (24) g. Dorcas A., b. May 1832 or earlier. She married, as his second wife, after coming to Maury Co., her first cousin, Alexander Harbison iii.

8. Alexander Harbison, called Alexander ii for clarity of reference, was ancestor of Malcolm Harbison of Dickson, Tn. and apparently also of Barbara Harvison Smith, wife of the compiler of these notes. Alexander ii was born in NC, no doubt Burke Co., about 1780. He was in SC or Ga. in 1803 when son John was born. He must have moved to Tn. shortly after this since his son, Alexander iii, is shown in the census records as born in Tn. except in 1880 when NC is shown. Almost certainly, Alexander's son, William, was born in Tn, probably just before 1810. It is known that Alexander was a buyer in an Oct. 1816 Williamson Co., Tn. estate settlement and he and brother Matthew witnessed a deed in Jan 1815 in Maury Co., Tn. Their witnessing the deed together supports the strong verbal tradition that this Alexander was a brother of Matthew Harbison (#4 above) of Maury Co., Tn.

Alexander was enumerated in Maury Co. 1820, in Lincoln Co. 1830 (as Alexander Harvison, living near his son, William), in Lincoln Co. in 1840 (next to his son John) and in Lincoln Co. in 1850 living with his son John. The compiler has some reason to believe that Alexander may have had a son Isaac (prob. b. before 1800) who had several descendants in the area of Perry and Greene Cos., Miss., and the adjoining Washington Co., Ala. The census records are not consistent on the origin of Isaac Harvison but Tenn and SC both appear on the census records pertaining to his sons. Also at least two of Isaac's grandsons were named Alexander. This family's name is nearly always spelled with a V (Harvison, etc.); only once (in a tax list in the 1820s) as Harbison. As an alternative, Isaac could have been from the Harvisons of Lincoln Co., NC. Harvisons of Lincoln Co., NC.

Alexander ii is almost certainly the one remembered by descendants of William Harbison (#26 below) still living in Tn. (1981) as the father of William and known as "old" Alexander, a poor relative of his more affluent brother Matthew of Maury Co. Alexander's cousin, James Matthew (#22) was also a person of some means. In contrast, Alexander ii had a terrific struggle just to make ends meet, and there is some evidence that he didn't always do that well. He moved around quite a bit and may have even been known as a "drifter" by his contemporaries. Apparently, he never accumulated any property of significance.

With regard to the spelling of Alexander's family name, it is of interest that many variant forms are used in the public records. The 1820 census has Alexander Harbison. As seen above, in 1830, both Alexander and his son William appear as Harvison, and were picked up as Harrison by Sistler's transcription, a mistake which still happens to modern day Harvisons. John appears as Harveston in

in 1840 Lincoln Co., Tn. In 1850 and 1860, John appears consistently as Harbison. John's son Matthew appears as Harbison in 1840 Ripley Co., Mo., thereafter consistently as Harvison which is the way his descendants (including the compiler's wife) spell their name. Harberson also appears in some records.

Alexander's wife appears to be Mary ----- assuming she is the Polly born 1784/5, SC, living in 1850 with Alexander iii in Maury Co. It may be recalled that Alexander ii was living with son John in Lincoln Co. that year. In addition to 4 daughters whose names are not known, Alexander's children appear to have been:

- (22) a. Isaac (?)
- (23) b. John, b. ab. 1804, Ga. or SC --- believed to be ancestor of the compiler's wife
- (24) c. Alexander iii, b. ab. 1806, Tn.
- (25) d. William, b. 1810-15, known to be ancestor of Malcolm Harbison of Hickson, Tn.
- e. Susan, b. 1815-20, Tn. (no further information)

THIRD GENERATION

9. James J. Harbison (James Jr.), son of James son of Alexander i, was born 1808/9 in Tenn., probably Williamson Co. He was a minister and is sometimes referred to as Rev. J. J. Harbison. He appears in the 1840 and 1850 Maury Co., Tn. censuses and in several tax lists in that county. He married about 1831 to Sarah J. Fields who was born 12 Oct 1811, NC, and died 18 Oct 1872, and is buried in the Ashland Cemetery in Wayne Co., Tn. James must have died between 1853 and 1860. Sarah is enumerated in 1860 in Wayne Co., Tn. and in 1870 in Lewis Co., Tn. 10 children.

- a. F. Susan Elizabeth, b. 1832, d. 1833
- b. James William or William James, b. 1833, m. Mary A. -----
- c. Brandon A., b. 1833/4, m. Sarah E. -----. They had a son, Allen Harbison.
- (26) d. George C., b. May 1837
- e. Mary Minerva, b. 1838/9
- f. Baldrige K., b. 1842, d. 1862
- g. Sarah A. M., b. 1843
- h. Emily Tennessee, b. 1844/5
- i. Darcus A., b. 1850/1
- j. Cynthia E., b. 1853/4

10. Thomas Witherspoon Harbison, son of Matthew of Maury Co., b. 23 Sept. 1804 in NC, m. 30 Jan. 1828 in Maury Co., Tn to Jane Alderson, prob. daughter of Robert Alderson of NC. Thomas was enumerated in Maury Co. in 1830/40/50 and in Hickman Co., Tn. in 1860. He died before 1870 and his widow is in Hickman Co. in 1870 and 1880. She died in Jan. 1893 and was buried at the Erwin Cemetery in Maury Co. Apparently only 4 children.

- a. -----, daughter, b. ab. 1828. Perhaps she is the Eliza J. Harbison in the 1850 Mortality Schedules who d. Aug 1849 of dropsy in Maury Co.
- b. -----, son, b. by 1830, probably d. by 1840.
- c. Sarah, b. 1830/1, m. W. B. Erwin
- (27) d. William M., b. 1848/9, d. 1933.

Information provided by Malcolm Harbison has allowed placement of the M. M. Harbison in Thomas Harbison's 1850 household as Matthew M. Harbison (1832-1910), son of Thomas' first cousin William Harbison of Lincoln County. It is known from family tradition that this Matthew was raised by Thomas W. Harbison.

about 1844 in Burke Co. to Martha ("Patsy") Throckmorton who was born 1818/9 in NC by census records, in England according to Mrs. Stewart. Mrs. Stewart's records credit Alexander and Patsy with 6 children but name only 4. Two others (Sarah and Mary) are named in census records.

- a. Sarah b. 1845/6, Burke Co., NC
- (30) b. John W., b. 2 Apr 1847 or 1848, Burke Co., NC, d. 23 Mar 1922; m. 2 Apr 1874, Rebecca Williams
- c. Mary, b. 1848/9, Burke Co., NC
- d. Lee ---m. Mollie ---; had daughters Agnes and Mary Lee.
- e. Emma
- f. Allen

It should be noted that the compiler once thought that Alexander (#20) might be identical with Alexander of Williamson Co. (#25 A.) but as of early 1983, #25A had not been satisfactorily placed. The statement that Mrs. Stewart's ancestor "Elie" (that is, Alexander #20) was brother of Matthew's father (that is, William #25) is of course, close but not exact --- they were first cousins.

- 21. James Matthew Harbison, son of John Harbison and Lydia Smith (or Mary), was born 28 Aug 1825, almost certainly Burke Co., NC. He is said to have been postmaster at Morgantown in Burke Co. before coming to Turkey Creek in Maury Co., TN. Although some accounts state that he came to Maury Co in Dec 1849, he does not appear in the 1850 census there and he does appear in the 1850 census of Burke Co., NC --- in the household of Lydia Harbison. He died 15 Mar 1898 and is buried in the Harbison Cemetery on Willis Woody's farm. He married 1 Nov. 1866 to Margaret E. Dodson. She was born 12 Jan. 1842 in Maury Co., daughter of James Ellis Dodson and Rebecca A. --- (Hope?). She died 28 July 1913. 2 children.

- a. Mary Elizabeth, b. 25 Oct 1867, d. 1943, m. Sam Willis Woody, son of John N. Woody. They had 6 children: S. E., John N., Maggie Eunice, Willis W., James Clarence, and J. E.
- b. John Ellis, b. 23 Oct 1869, d. 31 May 1891.

- 22. Isaac Harvison, placed tentatively by hypothesis only as possible oldest son of Alexander ii, was born about 1800, SC (by 1880 census). Both Isaac A. and George, sons of Isaac, had sons named Alexander. Isaac married about 1823, name of wife unknown. He was enumerated in 1830 and 1840 in Perry Co., Miss. Persons appearing to be his children are in the 1850 and 1860 Greene Co., Miss. census and in the 1880 and 1900 Washington Co., Ala. census. Isaac is known to be a nephew of George Harvison (#2A) and is believed to be related to William and David Harvison (persons #34 and 35, below). Isaac probably had about 12 children, only 4 or 5 of which are known by name.

- (31) c. Isaac A., b. ab. 1828, m. Martha A. ---
- (32) d. George, b. early 1830, m. Elizabeth ("Betsey") ---

g. Eliza, b. 1831/2 *

i. Esam (daughter), b. 1836/7 [or Eran]

- (32A) n. [John C.] (?), b. 1843

* Presumably the Elizabeth who m. 1855, Pinkney G. HILLMAN

NOTE: Alternatively, Eliza and Esam may be sisters of William and David Harvison (#34 and 35)

- 23. John Harbison, previously accepted as oldest son of Alexander ii ("old" Alexander), would be second oldest son if Isaac is also Alexander's son. He was, of course, born about 1803 in Ga. or SC. Since it is believed that this John is the great great grandfather of the compiler's wife, but since there is no absolute proof to this effect, the compiler has collected a large amount of information and done many analyses on John's family and the identity of his children. Because of space limitations, only a summary of his conclusions are given here. The census and other public records mentioning John (#23) are:

o1830 Maury Co., TN census (12001-20001). In this census, he is clearly distinguishable from his first cousin, John (#11) who also appears in this census (10001-00001). In 1831, John #23 appears in two Maury

Co. tax records, after which he disappears from Maury records and this disappearance lends support to his moving to another area. Four reasons support choosing the John of this census record as the father of Matthew of Missouri --- (1) there is no other viable choice in the 1830 TN census for Matthew's father, (2) there is a son born 1820-25 in this John's household matching Matthew's 21 Mar 1821 birthday, (3) first names of Maury Co. Harbisons similar to Matthew's family (Matthew, Alexander, John, (4) this John's family later has an instability setting stage for Matthew's running away, (5) John's 3 sons, b. 1820-30, cannot be identified in the 1850 TN census. In 1840, the John of interest appears as John Harveston in Lincoln Co., TN where John's father and brother (Alexander and William Harvison were in 1830). His entry was 010001-11001. Next to him was a garbled entry generally read as Azla Harris, but most likely an attempt at writing Alex. Harveston (00110001-00020001). John's younger children are conspicuously missing in his 1840 household. It appears that four of these were living in the household of his father Alexander while the firstborn, Matthew, appears as married and in the census of Ripley Co., Mo. Perhaps John's new and younger wife may have been unwilling and/or unable to raise his older children, thereby setting the stage for the incident that happened before 1840 that separated Matthew of Mo. from his family. This matter is discussed under Matthew's entry. John Harbison appears in the land records of Lincoln Co. (1844/5) and in the tax records of District 10 of that county in 1846/47/49/50.

o John Harbison appears in the 1850 census of Lincoln Co. with what presumably is his wife Mary, daughter Anna, and father Alexander. Several Pollins families, into one of which Anna Malinda Harbison married, also appear there in 1850.

o In 1860, John Harbison and wife, M.A., appear in Obion Co., TN next to James Dollins who may have married John's daughter and near Alexander Andrew Dollins who married Anna Malinda Harbison.

o The 1870 census of Obion Co. has not been searched, but in April 1876, Andrew and Anna (Harbison) Dollins were living in Greene Co., Ark. and in 1880, her mother, Mary A. Harbison (age 70) was living with them.

John appears to have married at an early age, about 1820, to a wife born 1800- 10. Her age helps to establish her as a first wife, since Mary, his wife in the 1850 and 1860 censuses was born after 1810, probably about 1812. John's first wife may have been a Younger, perhaps Sarah Younger since his alleged daughter and granddaughter also had that first name. Matthew's sons claimed blood relationship with the Younger brothers of Missouri, and his son, George W. Harvison, was definitely fairly well acquainted with Cole Younger and Frank James and visited with them when they came to Texas. Since the Jameses and the Youngers were members of Quantrill's Raiders during the Civil War and since traditionally Matthew Harvison's brother John was also a member of this group, the alleged relationship with the Youngers may have been based on a close association rather than actual kinship. However, no claim to kinship with the James boys was ever made. In the opinion of the compiler, there probably was a distant connection with the Younger family and, as was the case in other known situations, Southern sympathizers were quite ready to claim kinship with the Younger brothers on the basis of very distant relationships. There were Youngers in Williamson and Maury Cos. where John lived who were distantly related to the brothers. In particular, there was an Alexander Younger in the 1830 Maury census near John Harbison who would be in the proper age group to be his father-in-law. Be that as it may, by 1830, John Harbison and his firstwife had five children, 3 sons and 2 daughters.

- a. Matthew, born 17 March 1821, is believed to be the first of these children. Since this Matthew is the known ancestor of the compiler's wife, a separate chapter is devoted to him and his descendants.

b. The identification of the second son is more difficult and less definite. It's generally been assumed that he was John, remembered as Matthew's brother, but this placement is by hypothesis only. He could also be William of Greene Co., MS. Both alternatives will be pursued.

(33) i. John of TN, MO, and MS

(34) ii. William b. 1822/4 or earlier of Greene Co., MS

c. As was the case with the second son, the identity of the third son is uncertain. At one time, he was placed tentatively as Alexander of Williamson Co., TN whose year of birth has been placed from 1819 to 1827/8. This Alexander is placed as person # 25A and at this time is believed to be of a father other than John (#23). The best guess at this time for association with John's third son is

(35) -- David b. about 1826 of Greene Co., MS, who appears to definitely be brother of William (#34)

NOTE: As another alternate for sons b. and c., consideration has been given to Alexander Harrison (Harvison?) b. 1823/4 and William Harrisson (Harvison?) of De Kalb Co., AL since it has been thought possible that John's sons may have gone to AL to work in the cotton crops. These two Harrison (Harvison?) men were enumerated close together in the 1850 census.

d. and e. Daughters of John Harbison born 1825-30. There are no clues as to the identity of these daughters.

f. Son born 1830-35-- no clues as to his identity.

g. Daughter born 1830-35. This may be the Sarah Harbin (b. 1833) who married James D. Dollins, brother of Andrew Alexander Dobbins who married Anna Malinda Harbison.

As is apparent from the 1840 census, John had remarried by 1840 to Mary ----- (b. 1818/9 by 1850 census; 1811/2 by 1860 census; b. ab. 1810 by 1880 census). This second wife may have been of Cherokee descent since her daughter is said to be part Cherokee. One daughter by this second marriage (alternately, Anna Malinda could have been Mary's daughter by a previous marriage but taking the Harbison name: the most logical assumption is that she was daughter of John and Mary.

(36) h. Anna Malinda b. 18 Dec 1839. Lincoln Co., TN. Married 1 Nov. 1855, Obion Co., TN, Andrew Alexander Dollins. Died after 1900, Greene Co., Ark.

Note should be taken here that under Matthew of Maury Co. (person # 4), mention was made that four daughters of James Harbison and Rachel Porter settled in Maury Co. near Matthew and Alexander. Another daughter of James and Rachel, Ann Porter Harbison, 1m. William Shaw in Mercer Co., Ky. After his death she 2m. John Silvertooth. They moved to Lincoln Co., TN where they left several offspring. Another geographical coincidence (as noted under Robert R. Harbison (person # 17) is that David, son of Robert R. was in Lincoln Co., TN in 1860.)

24. Alexander Harbison (iii), son of Alexander ii ("Old" Alexander) was born about 1806 in Tennessee. He died before 1900. He is listed in every Maury Co. census from 1840 through 1880. Alexander, whose life was somewhat more stable than that of his brothers, had the good sense and/or fortune to marry two of his cousins from families more affluent than that of his father, "old" Alexander ii. He married 1st, 22 Oct 1835, Rachel Harbison, daughter of Matthew and Sarah. She died in 1849, and, on 16 Aug. 1854, he married another first cousin, Dorcas Harbison, who along with her brother James Matthew were relatively late comers to Maury Co., TN from Burke Co., NC. Five sons, three by Rachel and two by Dorcas. Nothing is known as to marriages, places of residence, etc. of the first three sons. It is known that neither of the younger sons married.

32A. JOHN C. HARVISON is apparently the only John Harvison born before 1850 who appears in Greene Co., MS. If this is the case, then 4 different years of birth are given for him, varying from 1835 to 1845 ---1843/4 in the 1870 census, Mar 1845 in 1900, 1835 in 1910, and 1839 from his gravestone in the Neeley or Old Washington Cemetery [d. 20 July 1918, age 79]. Unfortunately, he has not been found in an 1850, 1860, or 1880 census. Although John C. is believed to be son of Isaac (#22), there are two other possibilities for his origins:

(1) Possibly of the Lincoln Co., NC Harvisons - the given names Albert and Hiram were associated with this family. (There was an Albert Harverson (b.1814/5, NC) in Sunflower Co., MS in the 1850 census.) The Lincoln Co., NC family appears to be derived from the Harbisons of Botetourt Co., Va. Descendants of the Lincoln Co. family spelled their name as HarVison more frequently than other branches. Also possible is that Matthew Harvison of MO. and/or William Harvison of Greene Co. (#34) were of the Harvisons of Lincoln Co.!

(2) One John Harvison, said to be brother of Matthew of MO., reportedly served with Quantrill's Raiders, another of whose members was Cole Younger. The Harvisons of MO. were traditionally related to the Younger brothers (Cole, Jim, etc.) The appearance of the given names Cole and John among John C.'s children is intriguing, and, i i within the realm of possibility, based on the earliest version of John C.'s birth (1835), that he is the youngest son of John Harbison (#23) and hence identical with #33 below! *Traditionally this JOHN HARVISON, when last heard of, was in MS!*
Year of birth unknown

From a comparison of census records, John C. must have married twice; 1st, ab. 1861. E. ----- (b. 1843/4, MS) with possibly six sons (Charles, Albert, and Rip have not been proven to be his sons but they are believed to be):

- a. Cole, b. 1862/3 (no further information.)

- c. Charles, b. Dec 1873, m.1896/7, Louise Azziellen ("Azzie")

33. John Harvison, said to be brother of Matthew of Missouri, to have been associated with Quantrill's raiders during and/or after the Civil War, and to have settled in Miss. at some time ("when last heard of.") John's mother may have been a Younger, a distant relative of the Younger brothers of Missouri, who also rode with Quantrill. This John might be the John Harbison b. 1821/22, TN who is enumerated in Ward 4 of St. Louis, St. Louis Co., Mo. in 1850; occupation: Captain. (See also # 32A)
34. William Harvison, born 1823/4 or earlier, said to have been born in Miss. by 1860 census; 1850 census may imply a Tenn. birth place. If, as the compiler has suggested, William is son of John of Lincoln Co. (# 23), then he would have been born in Tenn. William was dead by 1870, possibly killed in the Civil War. He married about 1846, Matilda Breland. William appears to be enumerated in De Sota Co., Miss. in 1850; he is definitely in Greene Co., Miss. in 1860; and his widow is there in 1870. Apparently only two children.
- a. Mary Odelia, b. 1847/8, m. James Copeland.
 - b. Charles William, b. Feb. 1850, prob. De Sota Co., Miss., d. Jan. 1925, m. about 1870, Rhoda Harriett Merritt (1856-1930). 17 children.
35. David Harvison, born about 1826, in Miss according to the census records in which he appears. If as suggested by the compiler, he is son of John of Lincoln Co., TN (# 23), he would have been b. in Tenn. His wife was Mary ---- (b. about 1827, Miss.) David has been found in two census reports ---- 1850 Perry Co., Miss., living in the household of Gipson Walley and in the 1860 Greene Co., Miss. census only two dwellings removed from William Harvison (# 34 above.) David's proximity to William and their respective ages leads the compiler to strongly believe that they are brothers. Based on the two census reports, David and Mary apparently had no children.
36. Anna Malinda Harbison, born 18 Dec 1839 in Lincoln Co., Tenn., was the youngest child of John Harbison (#23) of Lincoln Co., Tenn. She appears in John's household in 1850 (Lincoln Co., Tenn.) She appears with her husband in Obion Co., Tenn. in 1860 and in 1880 and 1900, she appears in Greene Co., Ark., with husband in 1880 and as a widow in 1900. Anna Malinda is said to have had Cherokee Indian blood, leading us to think that her mother may have been Cherokee. She married 1 Nov 1855 in Obion Co., Tenn., Andrew Alexander Dollins, as his second wife. Andrew Alexander (1826-before 1900) was son of Joel Dollins and Mary Armstrong. He apparently had one son, Alonzo, by his first wife and he and Anna Malinda had 9 children, all born in Obion Co., Tenn. except the last two who were born in Greene Co., Ark.
- a. ----- (3 children dead by 1900 according to the 1900 census.)

32A. JOHN C. HARVISON is apparently the only John Harvison born before 1850 who appears in Greene Co., MS. The John H. Harvison (b.1838/9,MS) in George Harvison's 1860 Wash. Co. hh appears to be the John of interest. This George is believed to be s. of Isaac. John has not been found in an 1850 or 1880 census. From the MS Gen Exch (29:112(1983)), John C. is shown as a Confederate veteran. Although the compiler's hypothesis and family tradition both point toward John C. being son of Isaac (#22), there are two other possibilities for his origins:

(1) Possibly of the Lincoln Co., NC Harvisons - the given names Albert and Hiram were associated with this family. (There was an Albert Harverson (b.1814/5, NC) in Sunflower Co., MS in the 1850 census.) The Lincoln Co., NC family appears to be derived from the B22 bisons of Botetourt Co., Va. Descendants of the Lincoln Co. family spelled their name as HarVison more frequently than other branches. Also possible is that Matthew Harvison of MO. and/or William Harvison of Greene Co. (#34) were of the Harvisons of Lincoln Co.!

(2) One John Harvison, year of birth unk., said to be bro. of Matthew of MO., reportedly served with Quantrill's Raiders, another of whose members was Cole Younger. The Harvisons of MO. were traditionally related to the Younger brothers (Cole, Jim, etc.) Traditionally, this John Harvison, when last heard of, was in MS! John's having a son with given names Cole b. during the Civil War is intriguing. Also, the fact that no children were b. from 1863-8 could be an indication that he was with Quantrill's band during the war and hiding out after the war! (Alternatively, this fact could indicate that he had 3 rather than 2 wives.) It is within the realm of possibility, based on the earliest version of John C.'s birth (1835), that he is the youngest son of John Harbison (#23) and hence identical with #33

Based on census records and later corroborated by family tradition, John C. married at least twice; 1st, ab. 1861, E. ----, b. 1843/4, MS [1870 census] or Mollie COPELAND [family tradition; might be a 2d mar. ab. 1867], with possibly six sons (Albert and Rip have not been proven to be his sons but they appear to be):

- a. Cole, b. 1862/3 (no further information.)
- b. John, b. 1868/9 (no further information.)
- c. Charles, definitely placed as s. of John C. by family traditions, b. Dec 1873, m.1896/7, Louise Azalene ("Azzie") BYRD (b. Sep 1870 or 1868, d. 1958, bur. ORIGINS OF
AMERICAN
HARBISON/HARVISON FAMILIES

There are many families in the United States who spell their name as *Harbison*, *Harbeson*, *Harvison*, *Harveson* or something similar - most of whom would probably, but not necessarily, have a common origin if they were traced back to the 1500s, 1600s or early 1700s. As will be seen elsewhere herein, most of these families with a record or tradition of where they came from will find that the trail points toward northern Ireland.

Harbison seems to be the spelling commonly used in Ireland for members of these families, and for a majority of these U.S. families today. However, except for establishing and verifying close relationships among modern day members of the families, the exact spelling is not an issue in determining common origins.

In the 1800s, the name was spelled *Harbison* or *Harvison* in different records for the same individual, and it was not until later generations when literacy became more universal that one spelling or the other was consistently used. (When the *v* spelling is used, the name is frequently transcribed or indexed as *Harrison*, and the genealogy-researcher needs to be aware of this practice.) Forms such as *Harverson*, *Harberson*, *Harvenson*, *Harbinson* and *Herbison* were also not uncommon in the 1800s. One contemporary branch of the family who were once known as *Harveston*, now call themselves *Harvester*. Actually, the pronunciation of the name is more important than its spelling. One descendant of the *Harbisons* from South Carolina, now living in Mississippi, spells the name *Herbison*, said to have been used because that spelling was closer to the way the name was pronounced in Ireland.

It may be observed that in the vicinity of Nashville, Tennessee, there are many *Harbisons* with the *b* very inconspicuously enunciated. To a listener not familiar with the name, it comes out sounding more like *Harvison*, which is probably the reason for the inconsistent spellings in public records. No doubt because of his isolated location, and the fact that he was illiterate (as were most of his contemporaries) the descendants of Matthew *Harvison* of Shannon County, Missouri used the *Harvison* spelling. When the *v* spelling is used, clerks and others not familiar with the name frequently write or read it as *Harrison*, even today.

In the course of tracing American *Harbisons*, approximately ten distinct branches of the family have been found. Some of these are obviously

closely related, and others appear to be related from circumstantial evidence. The following is a list and description of these different branches.

1. The *Harbisons* of Botetourt and Augusta Counties, Virginia were said to have been from Ireland, and early members of the American family have been placed in Chester County, Pennsylvania. They spread out to Lincoln County, North Carolina, eastern Tennessee, Kentucky, Missouri and Indiana. The *Harvison* families of Meigs County, Tennessee; Independence County, Arkansas; Texas etc., appear to be of this branch. William *Harbison*, Sr., James *Harbison* (m. Rachel Porter) and probably others are the first American representatives of this branch.

2. Matthew *Harbison* of Ireland, Westmoreland County, Pennsylvania and Virginia, was born by 1728 and married Margaret Griffith. He had fourteen children, and some *Harbisons* in Knox and Blount Counties, Tennessee have been claimed as descendants of both him and William *Harbison* of group 1 above. Groups 1 and 2 definitely appear to be closely related.

3. The *Harbisons* of Maury, Lincoln, Dickson, Hickman and Obion Counties, Tennessee were traditionally from Ireland. It is believed that all of these families came from Alexander *Harbison* of Burke County, North Carolina. They are said to have been in Pennsylvania before going to North Carolina.

4. Matthew *Harbison* (later *Harvison*) of Ripley and Shannon Counties, Missouri, was definitely from Tennessee. It is generally believed that he was of the *Harbisons* of Maury and Lincoln Counties, Tennessee.

5. Samuel *Harbison*, who was born about 1770, probably in North Carolina, was in Henry County, Kentucky, about 1810; in Maury County, Tennessee about 1820; and then later settled in Morgan County, Alabama. His descendants then spread into Hancock (later Winston) and Cullman Counties, Alabama. One member was living in Lincoln County, Tennessee in 1860. From the geographical coincidences, it is thought that this branch is closely related to group 3 above.

6. The *Harvisons* of Perry and Greene Counties, Mississippi and Washington County, Alabama, have not yet been placed. There is some evidence that they were from Tennessee. John *Harvison* of line 4 above is said to have been living in Mississippi when last heard of. These families appear to be of related to Isaac *Harvison* of South Carolina and/or Tennessee, possibly related to those in group 3.

7. The *Harbisons* of Chester County, South Carolina are positively placed as being from Ireland. The *Herbisons* of Tennessee and Mississippi are considered part of this line.

8. The *Harvestons* (later *Harvesters*) of Mississippi are believed to be of the South Carolina *Harbisons*.

9. John Michael *Harbison*, Revolutionary War veteran of Union County, Pennsylvania, was reported as being of Scotch-Irish descent.

Harvison Family

10. Benjamin Harvison of Pennsylvania, and later of Fleming County, Kentucky, was said to be of Donganon, County of Antrim, Ireland. He was born about 1729, and his wife was Eliphill Harper. County Antrim is in extreme northeastern Ireland, part of Ulster, and hence certainly in Scotch-Irish country. Inconsistently, Donganon is in County of Cork, in the southern part of Ireland proper. Benjamin's ancestors may have come to Ireland from Glasgow, Scotland.

11. Matthew Harbison of Butler and Westmoreland Counties, Pennsylvania, was said to be of Shanroe, County Monaghan, Ireland. He was born about 1740 and married Margaret Carson. Although County Monaghan is now a part of Ireland proper, it was formerly a county in Ulster and definitely to be considered Scotch-Irish territory. Archibald Harbison, who settled in the vicinity of St. Louis, Missouri was of this line.

As already noted, families 3 and 4 appear to be connected. In turn, families 1, 2, 3 and 5 are very likely closely related. Representatives of group 1 lived in Lincoln County, North Carolina, and those of group 3 lived in Burke County, North Carolina. These counties were at one time adjacent. Also, several Harbison women from family group 1 married and settled in western Maury County, Tennessee, near representatives of family 3.

Families 10 and 11 have been described as having a common origin and both have been traced to the early 1300s in a typewritten work labeled McAnjou's THE HARBISON FAMILY (1890). (*)

Caroljo Lee's book, MERRIE OLDE MIDDLESEX (Pennsylvania), copyrighted 1976, has a chart stated to have been "prepared by Gustav Anjou for Samuel Pollock Harbison about 1900." Consequently, it is believed that Gustav Anjou must have been the author of the typewritten compilation. Both it and the Lee book name the earliest known Harbison ancestor as one John Harbyson. He lived in Nottingham and Northumberland, England, and later in Selkirk, Scotland (early 1400s). John and/or his immediate descendants settled in Baleyfield, County of Cork, Ireland, a part of Ireland proper in the extreme south part of the island (as early as the 1450s). They migrated to County Monaghan in northern Ireland shortly after this, where representatives of the family are found until the time of Matthew Harbison's and Margaret Carson's migration to Pennsylvania, around 1769. Another account in the Anjou compilation seems to place the Harbisons of this line in County Monaghan as early as 1356.

Since some of the Harbisons lived in Ireland long before the forced migration of the Scotch to northern Ireland in the 1600s, that gave rise to the well known Scotch-Irish settlements, they cannot all be called "Scotch-Irish" - and it is doubtful that any were really Scotch. However, inasmuch as they were living in Scotch-Irish territory at the time of the emigration to the new world, it is not totally inaccurate to call them Scotch-Irish.

The Anjou work presents the possibility that the ancestor of the County Monaghan group may have "come over from the continent, France possibly, to England at an early date, settling in Ireland after a brief sojourn in

(*) Recent information indicates that Mr. Anjou published work of professional quality, but reportedly he may also have sometimes fabricated "evidence" provided in reports to his clients. Consequently, his Harbison evidence needs to be critically evaluated before it is accepted. 3

England." This work also states that the name Harbison and its many variations are all derivatives of Herbertson, after St. Herbert, archbishop of Cologne in 1000 A.D., this name (Herbert) being extremely popular among the French nobility.

It should be emphasized that none of the Harbisons in the U.S. except those from Matthew Harbison and Benjamin Harbeson of Pennsylvania have been definitely connected to County Monaghan or Antrim. In view, however, of the consistent association of an Irish or Scotch-Irish origin to those of this name, it is quite possible that most, if not all of them, are descend from the County Monaghan or County Antrim groups. Some of those in these countries definitely have a common origin. Prior to coming to Ireland, our ancestral Harbisons may have been in England, and, perhaps before that, in France.

George Harbison application - In Revolutionary War and Indian Wars. Lived in Florida & Georgia. Born in N. C. Very interesting account of his service. His father's house was burned by Cornwallis. His nephew, Isaac Harbison with whom he lived, also made a deposition. Served in the Florida Expedition, Four Holes and at Compens.

The following notes taken Saturday. Will get his deposition later on xerox.

He applied for application on Apr. 19, 1843 - George Harbinson resident of Perry Co., Miss. applied for a pension at age 85 years. Intered under Capt. Wm. Long, Lt. Thomas Muse? of the S.C. Militia then Crain Co. Dist. now Kershaw District. Andrew Williamson was the General and Goodin (Robert I believe) was the Colonel. The tour he thinks was a month or six weeks. He was at the time at his father's place. This was called the Florida expedition.

Fifty pounds was offered for him dead or alive by the British. Tucker was captured and hung. He was born in N. C. upon How? River on the 10th day of May 1756. (Probably at Camden but not clear). He states his father's home was burned while Cornwallis was in Camden. He married in Kirshaw after War - had ten children then moved to Houston County, Georgia, from there to Florida and from there to this county (Perry Co., Miss.).

Very interesting account of service. He participated in the Siege of Savannah, Battle of Compens and severely wounded. Lived with nephew.

Sarah Harbison - W7706

Wife of William Harbinson of Guilford County, N.C. residing in Elbert Co., Georgia. He died Feb. 14, 1820. She applied Feb. 13, 1846. Nancy Bryan attested to marriage. (The Bryan family married into the Boone family. Both families lived in N.C.)

William Harbison served as a Light horse. "In relation to the statement I made, when I first presented this claim as to the marriage in which the rite of marriage was performed in N. C., I will just say that I received my information from citizens of that State who informed me that a publication of marriage three times previous to its taking place dispensed with the necessity of a marriage bond and a county Record whether performed by a Clergyman or magistrate. And so it is in this State." The above statement was made by the pensioner officer, Thomas I. Hughes, of the State of Georgia in a letter to the Commissioner of Pensions in Washington, D.C.

I will get copies of this deposition at another date. It is very lengthy but interesting.

M. Essary Mar. 8, 1983.

Dear Mrs. Strickland:

I appreciate so much the material you sent
on 25 Nov 1983.

Rather than letting things stack up, I'll
go ahead & comment on 3 items that have
aroused in recent correspondence with
yourself or others.

① See attached page concerning ¹⁸⁵⁰ census
record on Susan Harbison (Harvison) ~~of~~
sib of Alexander iii & Susan Waddy -
both 33 or 34 in 1850 - both b. in TN -
it's a long shot but maybe they are the
same!

② on your Washington Co. Mar list
- perhaps the J.T. Harbison whom Carrie Brown
was s. of Isaac ii
- Elles H. who m. Sadie Owen may be
Emmanuel E., son of Isaac ii
- George H. who m. Florence Hay was definitely
son of Isaac iii
- Munnie H. whom F.S. Snyder was son
of O. Isaac ii

Isaac iii was George
son who m.
Sarah E. Armstrong

(3)

From my query in the Miss. Gen. Exch., I heard from Charles G. Breland (see attached.) Note that he is curious about Brian Breland. Is there anything else on him?

I had T-Brian Breland on 2 - my word processor account - evidently, I picked up the evidence.

(4) See Revised Chart on George Harvison of Wash-Co., AL.

(5) Your Greene Co. list p. 43 says Enan Harvisa b. 1837 was in hh of Alex. McKay in 1850 - I wouldn't this be John L. Dantzler? (1850 Greene Co census, p. 548, hh-214).

(6) Any clues on the identity of Perry Co. residents
(a) George Harvison (b. 1794) m. 1819 Elizabeth Williamson
& (b) William Harvison (b. 1802)?

(7) On your compilation of families, there are some abbreviations or codes I recognized but others I didn't:

- lds - LDS records (CFI?)
- CC - christening record (?)
- CR - death record (?)
- FK -
- MR - marriage record (?)
- Pg -
- CW - [after Wm. F. Hartley on p. 43]

(8) David & Mary Harvison appear together in 1850 P. Co. - they must be first & wife!

would it be possible to get identities of the ones I missed?

Harbison, 16 Aug. 1854, who was dau. of John Harbison and Lydia Smith (their family was latecomers to Maury Co., also coming from Burke Co., NC). The William S. Harbison in this hh is said by his brother's descendants to have been brother of Matthew K. Harbison, raised by Thomas W. Harbison (see above), and was not son of Alexander and Rachel (Harbison) Harbison, but was raised in their hh. His father was William Harbison of Maury and Lincoln Co, Tn., almost certainly brother of Alexander. Both of Alexander's wives were also first cousins of William. Williams was dead by 1850 prob. by 1840. The Susan in this hh was probably an unmarried sister of Alexander since Rachel had no sister by that name. Polly must be his mother, although he is son of Alexander living 1850 with son John in Lincoln Co. and it is surprising that the two parents were living in different counties.

Dear Mr. Smith -

Thank you for all the Harvison data - and for the BRELAND connections. One name that I have not found in any record is that of T. Brian Breland, first husband of Rachel Jane Harvison. I wonder if you could tell me the source of your data on T. Brian Breland.

I have ^{found} no earlier connection between Harvison and Breland than Greene/Perry, but there could have been. Both seem to have arrived in Greene/Perry about the same time.

My brother and I have collected a large amount of data on BRELANDs in Miss., La., Ala., S.C., and N.C. if you find one you want to know more about, just ask. There's a good chance we may have something.

You have done an outstanding job on the Harvisons (etc.)

Sincerely,

Charles L. Breland

Dear Ms. Jean:

I enjoyed my copy of Who Married Whom
(Greene Co.). In reposting all reported Harvison
data, I found the following ~~one~~ probable discrepancy
on p. 71:

- Elias Miller (b-1835) m. 1859, Eran Harvison (b-1838)
[Probably dau. of Isaac Harvison] (OK)
- Eli Miller (b-1836), s. of Jeremiah Miller, m. 1859,
Mary Jane Harvison [b-1857] (questionable)

The first entry is well known to me but the
second appears to be referring to the same marriage
although (a) the bride's name is Mary Jane
rather than Eran (I haven't run onto
any Mary Jane Harvisons) & (b) her birth date
is 2 years before her marriage date.

If you have any further info on the
source of the data about Mary Jane Harvison,
I'd love to know of it.

Dear Mrs. Strickland -

I was delighted to receive the info on HARVISONs of Greene Co. that you sent. I addressed my letter to Mr. Strickland because his name was ~~was~~ the one given for ordering the books - I knew both of you were involved in the researching.

I'm writing Mrs. Vickers as you suggested. Since I opted to give her extracted information from a typed compilation I've done, I'm sending you a copy of this also since it may be in more tractable form than the charts I sent.

Notes on your compilation:

- (1) I'm sure David "Harvison" b. 1827 (who Mary) was David Harvison - prob. bro. of William. (my wife was known as Barbara Harvison many times when she was growing up - it was Harvison, of course). Incidentally all of the Greene Co. Harvisons are indexed as Harvison (over)

-2-
In the recently published 1860^{MS} Index.

(2) The "John" Harvison of 1860 Census just
has to be erroneous - The census taker
just erroneously entered John instead
of Charles. Charles^{William} Harvison m.
Rhoda Harriett Merriett & I feel sure
he was never m-to John Harvison
- Charles lived till 1925.
Unfortunately the real John Harvison
(John C.) is not in the 1860 Census
(I believe Charles is indexed as
John Harvison in the 1860 Soundex).

(3) J-B. Harvison should be J.C. As
you also did, I had him J.C. from the
1870 Greene Co. census. However, ~~from~~ in
the Index to Greene Co 1870 published in
1978 MS. Gen. Exchange, it was J.C.
& the original bears this out. I feel sure
he was the John C. of later censuses (see #32A
in my compilation.)

(4) Any place on parents of Thirum. Rachel Jane Harvison
b 1831?
Reynolds, Thron & Smith

I'd guess she's Isaac's dau,
& there's an open plot in
her chart

Dear Mrs. Strickland-

Since writing & as a result of (1) the
information & leads you sent, (2) answers to
my recent query in the MS. Gen-Exch.,
I have greatly expanded my knowledge of
the HARVISONs of Greene Co, MS.

Since it might be of interest to you & Mrs-Edwards,
I'm sending the following new material -

- (1) Item on Isaac Harvison (#33) &
John C. Harvison (#32A)
- (2) Harvison, Herbison, etc. in 1850 MS
Census
- (3) Revised family group sheet on George
Harvison of Washington Co, AL (I've
now found him in 1860!)

(OVER)

(#) new family group sheets on extended
Harvison lines:

Elias or Michael Miller / Eran (Erian) Harvison
Asa Breland & Ann Harvison

Pinkney G. Hillman & Eliza Beth Harvison

Charles Hillman & Rachel Jane Harvison

(note that the Eliza Harvison living
with Asa & Ann (Harvison) Breland in 1850/60
is not the same as Elizabeth who
m. Pinkney G. Hillman. On the surface of
it, it appears that Isaac had
daughters named Eliza & Elizabeth!

I'm weakening on William (m. Matilda Breland)
Harvison not being son of Isaac. It seems
logical that he was, yet neither the
1830 or 1840 census supports Isaac having
son b. before 1825!

Mrs. Jennie Vickers

Dear Mrs. Vickers:

I recently learned from Mrs. Jean Strickland of Moss Point, MS. that you are apparently descended from Martha (Harvison) Breland, 2^d wife of Hiram Breland, Presumably of Greene Co., MS.

Although they are not my direct line, I have done extensive research on the HARVISONs of Perry & Greene Cos, MS & Washington Co, AL. I believe they are quite likely related to my own HARVISONs (actually my wife's line -- She was BARBARA HARVISON before marrying me.)

Our line & possible connections with the MS HARVISONs are shown in the enclosed copies of excerpts from a compilation I did on the HARVISONs. I'm also enclosing a 4 page paper I did on Harbisons/Harvisons in general.

(OVER)

- 2 -

I'd love to have any facts, guesses, or speculations which you might have about your HARVISONs in general & Martha (Harvison) Breland's family in particular.

Just as a first guess, I'd say she was most likely (1) sister of Isaac (#22) who might be son of my wife's ancestor Alexander ii (#8) or (2) a daughter of George Harvison (#2A), known to be uncle of Isaac Harvison of Perry County, MS. (He lived in Perry Co., had land in Greene Co., in the part now George Co.)

I'd also value very highly any connections or challenges that you could make to my compilation.

Yours sincerely,
Theron L. Smith

Mr. Ben Strickland

Moss Point MS 39563

Dear Mr. Strickland:

Please send me one copy each of your two recent publications:

- (1) RECORDS OF GREENE CO., MS, VOL. 3: 1840-53 (1982) \$10.00.
- (2) RECORDS OF PERRY CO., MS, VOL. 4: 1841-53 (1982) \$10.00.

My check for \$20.00 is enclosed.

My interest in Greene/Perry Cos. is with the one or more Harvison families who lived in both cos. (as well as adjoining Washington Co, AL). Although not our direct line but believed to have a high probability of being related, I have researched these MS families extensively. I believe that this search will lead to an enlarged information base for the MS Harvisons as well as our branch. Incidentally, these families apparently spelled the name Harbison in Northern Ireland before immigrating to this country and most of the US representatives still spell it that way. Our branch and those in Greene/Perry eventually adopted the Harvison spelling - the two spellings are pronounced essentially the same and are often used interchangeably in early NC and TN records.

Since your area of speciality is Greene and Perry Cos., I am enclosing a copy of the family groups I have compiled on Harvisons in these counties. The four green colored charts are of our own lines and provide the hypothetical links (not proven) between our lines and the (possibly different) Harvison families of Greene and Perry Cos.

If you have other information on these lines and their interconnections or if you know of anyone else researching them, I'd love to hear from you. I have used your earlier publications on these counties in the Ft. Worth Public Library and some of my conclusions are based on your compiled cemetery records.

The following is a list of the charts I'm sending copies of:

- 1 Alexander Harbison i [direct line;hypothetical link]
- 11 George Harvison [Greene/Perry resident]
- 17 Alexander Harbison ii [direct line;hypothetical link]
- 170 Isaac Harvison [Greene/Perry resident]
- 1703 Isaac Harvison [Washington Co, AL resident]
- 1704 George Harvison [Washington Co, AL resident]
- 170C John C. Harvison [Greene/Perry resident]
- 170C3 Charles Harvison [Greene/Perry resident]
- 170C4 Albert H. Harvison [Greene/Perry resident]

Mr. John Harbison of 1810 Washington

have attempted to ~~match~~^{identify} him with
Isaac of Perry Co. I don't think
that's possible - he could be a
